Thank you for your interest in Skills Transitioning and Employment Pathways to Success!

Here at S.T.E.P.S., we believe every person deserves the opportunity to share their individual talents with the world. Our program gives young adults the ability to learn skills, gain confidence, and a sense of purpose through hands-on training. Young adults have the opportunity learn about the full retail process from design development to order pick-up or distribution. The skills our young adults learn can be applied to all facets of their life and allow them to increase their independence.

We strive to create the ideal environment for each one of our young adults, where they can grow in their skills and increase their confidence each day. Through our detailed assessment and interview process, we determine if our program is a fit for each young adult. At this time, we have a limited number of job positions available and as such we must ensure each young adult is a perfect fit for our current training center. As we grow and continue to add additional training centers, we will be able to reassess all previous applicants.

After returning the complete application, a member of the S.T.E.P.S. administrative staff will review it and present all the information to our team. A member of the S.T.E.P.S. administrative staff will contact you to set up the interview and assessment. Upon completing our application process, our team will have a meeting to determine if we have an opening that would suit your young adult. You will be notified by our staff about our determination regarding the placement of your young adult. If your young adult has secured a place in our current facility, a staff member will work with you to determine the best start date for your young adult for their trial period. The length of the trial period varies based on the young adult's schedule and staff's discretion. During this time, our program staff observe how your young adult fits within our current team. It is imperative that our young adults have the opportunity to flourish individually as well as a team.

If we do not have a position available at our current location, we will recommend young adults to attend our partner Day Habilitation Center, Next Step Transition Center. We will keep all young adult information on file and you will be contacted as soon as new positions become available.

Please feel free to contact us at support@stepstx.org with any questions you may have regarding this process. You may bring in applications any time Monday- Friday between the hours of 9:00 AM and 3:00 PM, excluding holidays. Again, thank you for your interest in our program and we look forward to growing alongside your young adult!

Warm Regards,
S.T.E.P.S. Team
